Equinox Risk, LLC — Founder; Security Advisor

June 2022 - Present (Washington DC region)

Providing holistic security assessments and fractional security leadership.

- Providing direction and hands-on support as 'vCISO' for SMB clients.
- Helping clients develop GRC programs.
- Maturing risk management to enable informed decision making.
- Executing security assessments of ICS / OT environments.

Redox, Inc. — Director of Security Risk

August 2019 - May 2022 (Remote)

Established and matured the cyber risk management function for a rapidly growing, cloud-based healthcare data exchange.

- Lead security incident management, third party risk, and vulnerability management in conjunction.
- Partnered with CISO in strategic planning, budgeting, hiring, team development, and prioritization. Interim CISO during outages.

Praetorian — Practice Manager

December 2013 - January 2018 (Austin, TX)

Trusted advisor to Fortune 1000, high tech startups, and critical infrastructure providers. Executed and managed a wide variety of security assessment and incident response projects. Enabled clients to identify, prioritize, and remediate technology risks.

- Led and executed full scope red team engagements, collaborative red / blue team services, regulatory compliance gap analysis, and holistic security program assessments.
- Managed and mentored a team of security engineers and consultants.
- Performed NIST- and CSC-based assessments of operational technology (OT) in industrial control environments.
- Spearheaded development of formal testing methodologies for existing and new service offerings.

DISD, LLC — Founder; Security Advisor

December 2009 - December 2019 (Austin, TX)

Provided freelance services specializing in technical security assessments, incident detection and handling, and risk assessments.
